

We want to reassure you that we are taking every step necessary in maintaining and updating our infection control protocols as it pertains to COVID -19.

## OFFICE ENHANCEMENTS & POLICIES

Sanitizing all high-touch areas & maintaining Social Distancing

Hand sanitizers available at the front desk and throughout the office for patients to use upon arrival and departure

Paperless with no contact check in and out process to minimize your time in the office

Both offices equipped with air purification systems.

Daily temperatures will be taken of all staff members at the beginning of their shift as well as patients upon arrival

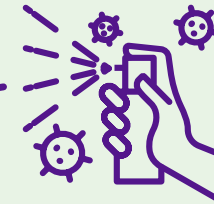

Protective coverings on chairs, trays and light fixtures replaced after every patient

## OPERATORIES

Sterilization procedures have always been in place

All surfaces sanitized, light fixtures, handles and other high-touch areas with surface disinfectant after every patient

In addition to the regular protective PPE that we have always used, staff are outfitted with N95 masks and head coverings

## PROTECTIVE GEAR

# Your Safety is Our Priority

We will continue to monitor the CDC guidelines and the American Dental Association regulations, and update these procedures accordingly. We are focused on keeping everyone safe and healthy as we continue to care for your dental needs.
